

JEEVITHA S

Java Backend Developer | Spring Boot | REST APIs | Microservices | Cloud & Security

Tamil Nadu, India | +91 6382699457 | jeevithavjb1@gmail.com

linkedin.com/in/jeevithamca | github.com/jeevitha1991 | Open to Relocation: PAN India

PROFESSIONAL SUMMARY

Motivated Java Backend Developer (MCA 2025) with hands-on experience designing and delivering scalable REST APIs, microservices, and secure backend systems using Java, Spring Boot, Hibernate/JPA, and PostgreSQL. Demonstrated ability to reduce API response time by 35% through query optimization and cut database load by 30%+ via Redis caching. Proficient in Spring Security with JWT authentication, RBAC, AES/SHA-256 encryption, and CI/CD automation using GitHub Actions and Docker. Strong foundation in Data Structures, Algorithms, OOP, and System Design (HLD/LLD). Actively seeking Java Backend Developer roles across India; open to relocation.

TECHNICAL SKILLS

Core Language: Java (primary), Python, SQL, JavaScript

Backend Framework: Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, REST APIs, JWT Auth, RBAC, Microservices

Database: PostgreSQL, MySQL, Query Optimization, Indexing, ACID Transactions, Redis Caching

Build & CI/CD: Maven, Gradle, GitHub Actions (CI/CD pipelines), Docker (containerization)

Security: JWT, RBAC, AES/SHA-256 Encryption, Spring Security, Identity & Access Management concepts

Messaging: Apache Kafka (producer/consumer), Event-driven Architecture

Cloud & Tools: AWS EC2, S3, Postman, Git, GitHub, Linux/Ubuntu

Testing: JUnit, Mockito, TDD, Unit Testing, Integration Testing

System Design: HLD/LLD, Data Structures & Algorithms, OOP, Design Patterns (SOLID, Factory, Builder)

PROFESSIONAL EXPERIENCE

Software Development Intern — Strydo Technologies

Dec 2024 – Mar 2025 | On-Site | Java · Spring Boot · Spring Security · Hibernate/JPA · Redis · PostgreSQL · Maven · JUnit · Agile

- Architected and delivered production-grade REST APIs using Java and Spring Boot in an Agile/Scrum team; managed builds with Maven across weekly sprints.
- Implemented JWT-based authentication and RBAC authorization using Spring Security — secured all API endpoints against unauthorized access.
- Achieved 35% reduction in API response time through Hibernate/JPA entity optimization and PostgreSQL query indexing.
- Integrated Redis caching layer, eliminating redundant DB calls and cutting database load by 30%+.
- Configured end-to-end GitHub Actions CI/CD pipeline for automated build, test, and deployment; containerized all services with Docker.
- Practiced Test-Driven Development (TDD) with JUnit and Mockito; participated in peer code reviews and sprint retrospectives.

KEY PROJECTS

Food Ordering System | github.com/jeevitha1991

Java · Spring Boot · Spring Security · Hibernate/JPA · PostgreSQL · JWT · Redis · Docker · GitHub Actions | Jan – Mar 2026

- Built complete backend system with Spring Boot REST APIs covering user auth (JWT+RBAC), cart management, order processing, and inventory tracking.
- Designed normalized PostgreSQL schema with Hibernate/JPA; optimized query performance using indexing; integrated Redis for response caching.
- Containerized application with Docker; automated build-test-deploy pipeline with GitHub Actions CI/CD.

Blockchain-Based Secure Application | github.com/jeevitha1991

Java · Spring Boot · Spring Security · AES/SHA-256 Encryption · MySQL · Hibernate/JPA · Maven

- Designed enterprise-grade secure system applying JWT, RBAC, and AES/SHA-256 encryption — demonstrating end-to-end security architecture skills.
- Applied SOLID design principles with factory/builder patterns; maintained clean architecture and full Maven lifecycle management.

Flight Delay Prediction System | github.com/jeevitha1991

Python · pandas · Machine Learning · REST API · Redis · GitHub Actions CI/CD

- Built ML-powered REST API achieving ~87% flight delay prediction accuracy; reduced repeated query time with Redis caching.
- Deployed via automated GitHub Actions CI/CD pipeline with Agile bi-weekly release cycles.

EDUCATION

Master of Computer Applications (MCA) — Sacred Heart College, Vellore | 2023–2025 | CGPA 6.4/9

PG Diploma in Data Science (PGDDS) — Sacred Heart College, Vellore | 2023–2025 | CGPA 7.3/9

B.Sc. Mathematics — Thiruvalluvar University, Vellore | 2019–2022 | CGPA 8.2/10

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Software Master Program — Learnbay (Jul 2025 – Mar 2026): Backend Engineering, DSA (Arrays, Linked Lists, Trees, Graphs, DP), System Design (HLD/LLD), Agile practices.
- Solved 279+ LeetCode problems across Arrays, Strings, Dynamic Programming, Trees, and Graph topics.
- Built and maintained end-to-end CI/CD pipelines with GitHub Actions; hands-on Docker containerization experience.
- Fluent English — written and spoken; experienced in Agile ceremonies, sprint planning, and collaborative code reviews.
